

All set to take the Big Leap with EXFI

INDIA'S FASTEST AND THE LIGHTEST
GST ENABLED INVOICING SOFTWARE

THE BROCHURE

extfi

Overview

What is Exfi ?

After a decade-long wait, India finally implemented the Goods and Services tax from July 1. Goods and Services tax will help remove tax barriers between states, creating a single market. The roll-out replaced a plethora of cascading central, state, interstate and local taxes with a single, nationwide, value-added tax on goods and services. With the introduction of Goods and Services tax, Companies now have to overhaul their accounting systems.

This is when Exfi takes charge. Exfi is the simplest & easiest Goods and Services tax software which helps you to make invoices, bills and manage inventory as per the Goods and Services tax guidelines. You do your business and Exfi will take care of your Invoicing & Billing. Exfi make things far easier for you.
